

DIRECTOR OF CENTRAL INTELLIGENCE  
**Security Committee**

SECOM-D-300

3 September 1982

MEMORANDUM FOR: SECOM Members  
Chairman, R&D Subcommittee

FROM:   
Chairman

SUBJECT: R&D Subcommittee Membership

STAT

Members of the SECOM R&D Subcommittee are involved in a number of sensitive projects which usually extend over relatively long periods of time. Both technical expertise and continuity are desirable attributes for those who represent Community departments and agencies on that subcommittee. A number of recent changes in Community representation on the R&D Subcommittee suggests the need for review to determine whether members (and alternates where desired) have the requisite knowledge and expected tenure to be the most effective spokesmen for their agencies. Accordingly, SECOM members are requested to conduct such a review and advise my staff and the Chairman of the subcommittee of any changes, new designations, or reaffirmations of current representation. All representatives to the subcommittee must have current authorized access for SI and TK. Responses should be received no later than 22 September 1982.
